

ROTH Capital Partners Conference

March 2018

NYSE: CDE

> Cautionary Statements

This presentation contains forward-looking statements within the meaning of securities legislation in the United States and Canada, including statements regarding the re-scoped mine plan at Rochester, anticipated benefits of the Silvertip acquisition and operations at Silvertip as well as anticipated production costs, exploration and development efforts, expenditures, grades, stripping, timing of publication of technical reports for the Kensington and Silvertip mines, expected impact of U.S. tax reform, cash flow, growth, investments, capital, margin expansion, and execution. Such forward-looking statements involve known and unknown risks, uncertainties, and other factors which may cause Coeur's actual results, performance, or achievements to be materially different from any future results, performance, or achievements expressed or implied by the forward-looking statements. Such factors include, among others, the risk that the re-scoped mine plan at Rochester (and benefits thereof) are not realized, the risk that the anticipated benefits of the Silvertip acquisition are not realized on a timely basis or at all, the risk that anticipated production, expense levels, and other operational parameters are not attained, the risk that necessary permits will not be obtained, the risk that development goals for Silvertip will not be met and that disruptions from the transaction will harm relationships with customers, employees, suppliers, and regulators, the risk that unexpected costs will be incurred, the risks and hazards inherent in the mining business (including risks inherent in developing large-scale mining projects, environmental hazards, industrial accidents, weather, or geologically related conditions), changes in the market prices of gold, silver, lead, and zinc, and a sustained lower price environment, the uncertainties inherent in Coeur's production, exploratory and developmental activities, including risks relating to permitting and regulatory delays, ground conditions, grade variability, any future labor disputes, or work stoppages, the uncertainties inherent in the estimation of gold and silver ore reserves, changes that could result from Coeur's future acquisition of new mining properties or businesses, the loss of any third-party smelter to which Coeur markets silver and gold, the effects of environmental and other governmental regulations, the risks inherent in the ownership or operation of or investment in mining properties or businesses in foreign countries, Coeur's ability to raise additional financing necessary to conduct its business, make payments or refinance its debt as well as other uncertainties and risk factors set out in filings made from time to time with the United States Securities and Exchange Commission, and the Canadian securities regulators, including, without limitation, Coeur's most recent report on Form 10-K Actual results, developments, and timetables could vary significantly from the estimates presented. Readers are cautioned not to put undue reliance on forward looking statements. Coeur disclaims any intent or obligation to update publicly such forward-looking statements, whether as a result of new information, future events, or otherwise. Additionally, Coeur undertakes no obligation to comment on analyses, expectations, or statements made by third parties in respect of Coeur, its financial or operating results or its securities.

Christopher Pascoe, Coeur's Director, Technical Services and a qualified person under Canadian National Instrument 43-101, reviewed and approved the scientific and technical information concerning Coeur's mineral projects in this presentation. Mineral resources are in addition to mineral reserves and do not have demonstrated economic viability. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of mineral reserves, and there is no certainty that the inferred mineral resources will be realized. For a description of the key assumptions, parameters and methods used to estimate mineral reserves and resources, as well as data verification procedures and a general discussion of the extent to which the estimates may be affected by any known environmental, permitting, legal, title, taxation, socio-political, marketing or other relevant factors, Canadian investors should see the Technical Reports for each of Coeur's properties as filed (including the Technical Report for the Rochester mine, including the preliminary economic analysis described in this presentation (the "PEA")) on SEDAR at www.sedar.com.

The PEA for the re-scoped mine plan at the Rochester mine is preliminary in nature and includes inferred mineral resources, and does not have as high a level of certainty as a plan based solely on proven and probable reserves. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of mineral reserves and there is no certainty that the results from the preliminary economic assessment will be realized should the Company decide to proceed with the re-scoped mine plan. This decision has not yet been made. Coeur expects to continue evaluating and optimizing the HPGR option and expects to make a development decision in early 2019.

Cautionary Note to U.S. Investors - The United States Securities and Exchange Commission permits U.S. mining companies, in their filings with the SEC, to disclose only those mineral deposits that a company can economically and legally extract or produce. We may use certain terms in public disclosures, such as "measured," "indicated," "inferred" and "resources," that are recognized by Canadian regulations, but that SEC guidelines generally prohibit U.S. registered companies from including in their filings with the SEC. U.S. investors are urged to consider closely the disclosure in our Form 10-K which may be secured from us, or from the SEC's website at <http://www.sec.gov>.

> Cautionary Statements (cont.)

Non-U.S. GAAP Measures - We supplement the reporting of our financial information determined under United States generally accepted accounting principles (U.S. GAAP) with certain non-U.S. GAAP financial measures, including adjusted net income (loss), adjusted EBITDA, total debt- and net debt-to-LTM adjusted EBITDA, adjusted EBITDA margin, adjusted costs applicable to sales per silver equivalent ounce, and adjusted all-in sustaining costs. We believe that these adjusted measures provide meaningful information to assist management, investors and analysts in understanding our financial results and assessing our prospects for future performance. We believe these adjusted financial measures are important indicators of our recurring operations because they exclude items that may not be indicative of, or are unrelated to our core operating results, and provide a better baseline for analyzing trends in our underlying businesses. We believe adjusted net income (loss), adjusted EBITDA, adjusted EBITDA margin, total debt- and net debt-to-LTM adjusted EBITDA, adjusted costs applicable to sales per silver equivalent ounce, and adjusted all-in sustaining costs are important measures in assessing the Company's overall financial performance.

Silver and gold equivalence assumes a 60:1 silver-to-gold ratio, except where noted as average spot prices. Average spot prices and silver-to-gold ratios are included in the appendix to this presentation. Silver and lead equivalence assumes a 0.05:1 silver-to-lead ratio. Silver and zinc equivalence assumes a 0.06:1 silver-to-zinc ratio.

> North America-Focused Growing Precious Metals Producer COEUR MINING®

Based in the U.S., Coeur Mining (NYSE: CDE) is one of the world's largest primary silver producers, a significant producer of gold, and has repositioned its portfolio with a focus on sustainable, high-quality cash flow

\$1.5B market cap¹

\$23M 90-day ADTV¹

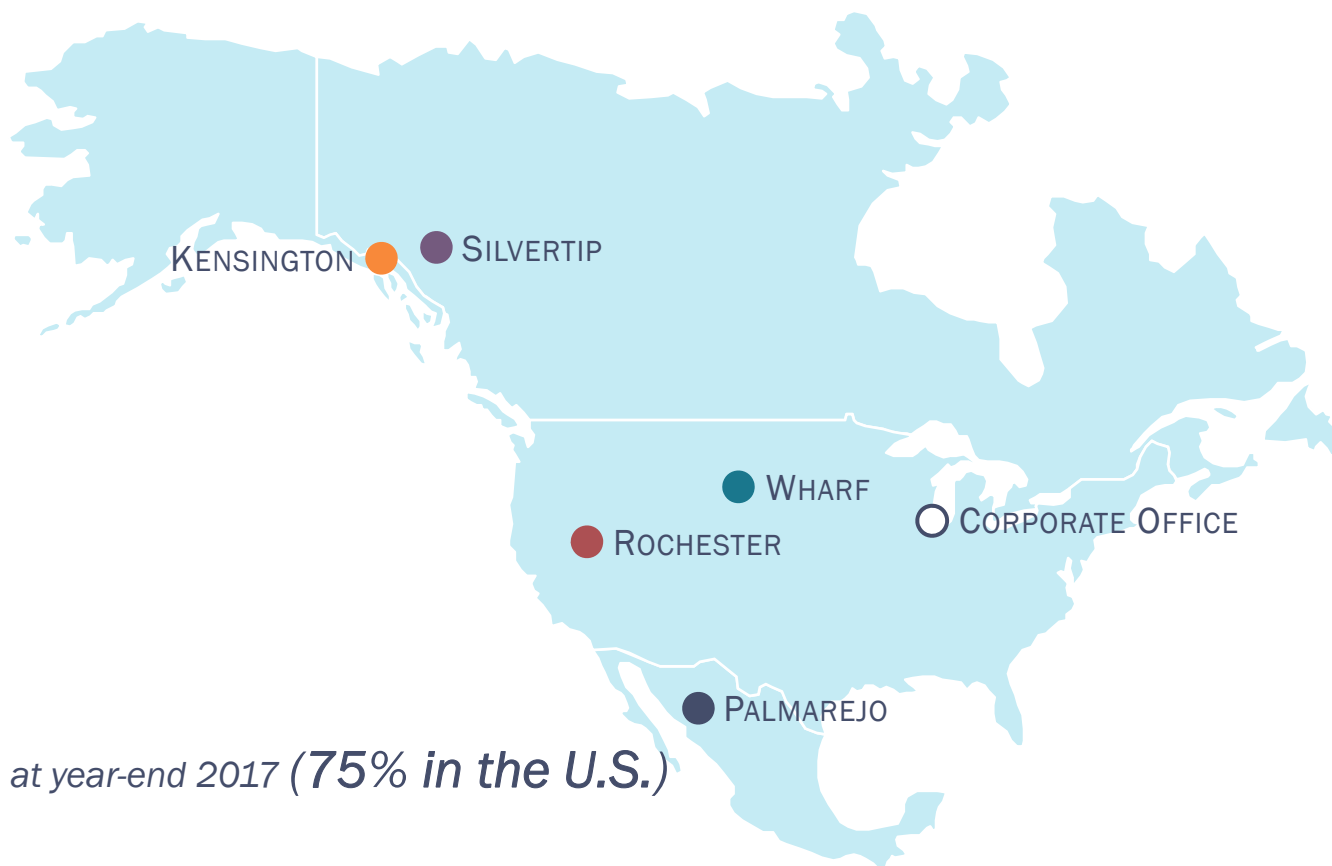

\$280M of liquidity²

2,000 employees

5 operating mines

336M AgEqOz³ reserves at year-end 2017 (75% in the U.S.)

36.0 - 39.4M AgEqOz³ 2018E⁴ production

Note: See slides in appendix for additional information related to mineral reserves and resources. Canadian investors should refer to the latest technical reports for Coeur's mines on file at www.sedar.com.

(1) Based on a closing stock price of \$7.86 as of March 6, 2018.

(2) As of December 31, 2017. Includes \$192M of cash and cash equivalents and \$88M of available revolver.

(3) Silver equivalence assumes silver-to-gold, -lead and -zinc ratios of 60:1, 0.05:1 and 0.06:1, respectively, except where noted as average spot prices.

(4) 2018 production guidance as published by Coeur on February 7, 2018.

(1) Silver equivalence assumes silver-to-gold, -lead and -zinc ratios of 60:1, 0.05:1 and 0.06:1, respectively, except where noted as average spot prices. Spot silver equivalence for 2018 guidance purposes assumes silver-to-gold, -lead and -zinc ratios of 75:1, 0.07:1 and 0.09:1, respectively. Historical average spot prices and equivalences are included in the appendix to this presentation.
 (2) Midpoint of production and capital expenditures guidance as published by Coeur on February 7, 2018.

(3) See applicable non-GAAP reconciliation tables in the appendix to this presentation.
 (4) Sustaining capital expenditures exclude capital leases.
 (5) Free cash flow is defined as cash flow from operating activities less capital expenditures and gold production royalty payments. See applicable reconciliation tables in the appendix to this presentation.

Organic Initiatives

- Organizational overhaul
- Investments to increase production scale and/or grade at Palmarejo, Rochester and Kensington
- Process optimization and technology investments across portfolio
- Near-mine exploration focus
- Revamped balance sheet providing strength and flexibility

Complementary Portfolio Enhancements

- Acquired the Wharf gold mine from Goldcorp in 2015
- Acquired Paramount Gold & Silver Corp¹ in 2015
- Sold several non-core assets since 2016 for total consideration of ~\$65M
- Acquired the high-grade Silvertip silver-zinc-lead mine in British Columbia in 2017
- Sale of the Company's wholly-owned Bolivian subsidiary and San Bartolomé in 2018
- Investments in select exploration-stage growth opportunities

(1) Owner of land package adjacent to Palmarejo mine in Mexico.

> Palmarejo: A Confluence of Strategic Successes

Palmarejo's 2017 performance represents the culmination of synergistic M&A, development of higher-margin production, and high-return exploration

- 2014: Renegotiated FNV gold stream agreement (took effect in 2016)
- 2015: Acquired adjacent, royalty-free land package
- 2016: Transitioned to higher-grade, underground-only operations
- 2017: Achieved mining rate target; accelerated results-based drill programs

Underground Transition and Grades

Production, LTM FCF¹ and Unit Costs

Reserves and Resources

Note: See slides in appendix for additional information related to mineral reserves and resources. Canadian investors should refer to the applicable technical report on file at www.sedar.com.

(1) Free cash flow is defined as cash flow from operating activities less capital expenditures and gold production royalty payments. See reconciliation tables in the appendix to this presentation.

(2) Silver equivalence assumes silver-to-gold, -lead and -zinc ratios of 60:1, 0.05:1 and 0.06:1, respectively, except where noted as average spot prices. Historical average spot prices and equivalences are included in the appendix to this presentation. See applicable non-GAAP reconciliation tables in the appendix to this presentation.

> Wharf: A Case Study for Successful M&A

Acquired in early 2015, Wharf has already generated a return on investment of approximately 20%¹, driven by operational improvements, targeted investments in exploration, and several technical and modeling enhancements

Free Cash Flow²
(\$M)

Gold Reserves and Depletion
(K oz)

Note: See slides in appendix for additional information related to mineral reserves and resources. Canadian investors should refer to the technical report for Wharf on file at www.sedar.com.

(1) Return on investment determined based on final acquisition cost of \$99.5M in February 2015 and free cash flows of \$28.8M, \$57.6M and \$40.8M in 2015, 2016 and 2017, respectively. Mid-period convention was used in calculating the return on investment.

(2) Free cash flow is defined as cash flow from operating activities less capital expenditures and gold production

royalty payments. See applicable reconciliation tables in the appendix to this presentation.

(3) Mineral reserves estimate for the year ended December 31, 2013 as reported by Goldcorp, Inc. See relevant tables in the appendix to this presentation.

(4) Estimated depletion of contained mineral reserves based on production as reported by Goldcorp, Inc. in 2014 and 2015 and Coeur since its acquisition through 2017 and assumes an 80% metallurgical recovery rate.

(1) Silver equivalence assumes silver-to-gold, -lead and -zinc ratios of 60:1, 0.05:1 and 0.06:1, respectively, except where noted as average spot prices.

> In 2018, A Focus on Incremental Growth

Near-term capital projects will be a focus in 2018 and are expected to result in further companywide margin expansion

Silvertip

- Amongst the highest-grade operations in the sector
- In 2018, anticipated production of 4.0M - 5.1M silver equivalent¹ ounces
- Underground drilling and development underway since 4Q 2017
- Production commenced in early March and is expected to ramp-up through year-end
- Expect to publish NI 43-101 Technical Report in 3Q

Rochester²

- Re-scoped mine plan introduces planned addition of high pressure grinding roll (“HPGR”) technology
- Expected to more than double Rochester’s NAV
- Engineering to be finalized in 2018 for planned installation of first HPGR unit in early 2019
- Planned construction of larger, more efficient crusher with second HPGR unit in 2020/2021

Kensington

- Increased mining and processing rates over the last several years
- Currently focused on discovery and expansion of sustainable higher-grade ore sources
- Jualin expected to deliver high-grade lift beginning in 2H

(1) Silver equivalence assumes silver-to-gold, -lead and -zinc ratios of 60:1, 0.05:1 and 0.06:1, respectively, except where noted as average spot prices.

(2) The PEA for the re-scoped mine plan is preliminary in nature and includes inferred mineral resources, and does not have as high a level of certainty as a plan based solely on proven and probable reserves. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of mineral reserves and there is no certainty that the results from the preliminary economic assessment will be realized should the Company decide to proceed with the re-scoped mine plan. This decision has not yet been made. Coeur expects to continue evaluating and optimizing the HPGR option and expects to make a development decision in early 2019. See slides 14 and 24-26 for additional information. Canadian investors should refer to the Technical Report and Preliminary Economic Assessment for Rochester dated March 5, 2018 on file at www.sedar.com.

> Re-Scoped Mine Plan¹ Doubles Rochester's NAV

A re-scoped mine plan and preliminary economic assessment (“PEA”) incorporates the positive economic impact expected from the potential addition of HPGR technology to Rochester’s crushing circuit beginning in early 2019

Highlights of Expected HPGR Impact

- Increases recoveries from 61% over 20 years to 70% in just over two years
- Decrease in strip ratio by more than half from 0.8:1 to less than 0.4:1
- Lower crusher maintenance and power costs
- Marked increase in anticipated pre-tax cash flow margin from 19% to 31%

	2017 TR	2018 PEA
Mine Life	2031	2038
Silver Recovery	61%	70%
Overall Silver Recovery	20 years	2 years
Strip Ratio	0.8:1	0.4:1
Operating Cash Flow (\$M)	\$831	\$1,306
Capital Expenditures (\$M)	\$387	\$351
Average Annual Pre-Tax Cash Flow (\$M)	\$33	\$48
NAV _{5%} (\$M)	\$280	\$609

(1) For additional information regarding Rochester’s re-scoped mine plan and PEA, please refer to slides 24-26. Canadian investors should refer to the Technical Report and Preliminary Economic Assessment for Rochester dated March 5, 2018 on file at www.sedar.com.

> Looking Ahead

- Updated technical report for Kensington planned during 1Q
- Ramp-up of milling rates and production at Silvertip expected through year-end
- Technical report for Silvertip anticipated during 3Q
- Mining rates from Jualin anticipated to climb and reach commercial production during 2H

2018 Production Outlook

	Silver (K oz)	Gold (oz)	Zinc (K lbs)	Lead (K lbs)	AgEqOz ² (K oz)
Palmarejo	6,500 – 7,100	110,000 – 115,000	-	-	13,100 – 14,000
Rochester	4,200 – 4,700	45,000 – 50,000	-	-	6,900 – 7,700
Kensington	-	115,000 – 120,000	-	-	6,900 – 7,200
Wharf	-	85,000 – 90,000	-	-	5,100 – 5,400
Silvertip	1,500 – 2,000	-	23,000 – 28,000	23,000 – 28,000	4,030 – 5,080
Total	12,200 – 13,800	355,000 – 375,000	23,000 – 28,000	23,000 – 28,000	36,030 – 39,380
Total (incl. SB)	12,800 – 14,400	355,000 – 375,000	23,000 – 28,000	23,000 – 28,000	36,630 – 39,980

2018 Cost Outlook

(\$M, except per ounce amounts)	Guidance		2017 Result	
	60:1	Spot	60:1	Average Spot
CAS per AgEqOz ² – Palmarejo	\$10.50 - \$11.00	\$9.25 - \$9.75	\$9.36	\$8.38

(1) 2018 production and cost guidance as published by Coeur on February 7, 2018.

(2) See non-GAAP reconciliation tables in the appendix to this presentation. Silver equivalence assumes silver-to-gold, -lead and -zinc ratios of 60:1, 0.05:1 and 0.06:1, respectively, except where noted as average spot prices. Spot silver equivalence for 2018 guidance purposes assumes silver-to-gold, -lead and -zinc ratios of 75:1, 0.07:1 and 0.09:1, respectively. Historical average spot prices and equivalences are included in the appendix to this presentation.

Executive Compensation and Governance

> 2017 CEO Compensation Tied to Stockholder Returns

> 2017 Incentive Plan Aligned with Strategic Objectives

PROTECT		Zero Fatalities TRIFR ¹ % Reduction	AIP ³ 15%
		No NOVs ² % Reduction in Reportable Spills	
DEVELOP		Three-Year Growth in Reserves and Measured & Indicated Resources/Share	PSU ⁴ 25%
DELIVER		All-in Sustaining Costs Operating Cash Flow	AIP 60%
		Three-Year Growth in Operating Cash Flow/Share Relative Total Stockholder Return	PSU 75%
		Production	AIP 25%

(1) "TRIFR" means Total Reportable Injury Frequency Rate.

(2) "NOV" means notice of violation of environmental regulations for actions by Coeur that caused or created the potential for environmental harm.

(3) "AIP" means the Company's annual incentive plan.

(4) "PSU" means performance share units.

> Diverse Board Led by Independent Chair

- Nine out of ten Directors are independent (all except CEO); all four main committees comprised of independent directors only
- Two new directors appointed in February 2018 having skills and experiences that complement other directors
- Balance of newer and longer serving directors; no mandatory retirement age

Diversity of Director Experience

> Other Governance Highlights

Governance Practices

Board Refreshment and Succession Planning	<ul style="list-style-type: none">• Two new independent directors added to the Board in February 2018 and five directors – or 50% of the Board – added in last five years• In 2017, the Board engaged a third party to consult on refreshment and succession planning
Robust Board and Committee Evaluations	<ul style="list-style-type: none">• Annual evaluations promote Board and Board committee effectiveness• Chairman’s one-on-one meetings with each director promote candor, effectiveness and accountability
No Related Party Transactions	<ul style="list-style-type: none">• No related person transactions with directors or executive officers
Board-Level Risk Oversight	<ul style="list-style-type: none">• The Board and Board committees take an active role in the Company’s risk oversight and risk management processes
Active Stockholder Engagement	<ul style="list-style-type: none">• During 2017, Coeur continued its proactive and robust stockholder outreach efforts on governance, executive compensation and other matters, contacting all holders of 0.2% or more in Fall 2017

Stockholder Rights

Annual Election of Directors	<ul style="list-style-type: none">• All directors are elected annually for one-year terms
Majority Voting for Director Elections	<ul style="list-style-type: none">• Majority voting in uncontested director elections with a resignation policy
Stockholder Right to Call Special Meetings	<ul style="list-style-type: none">• Stockholders owning 20% or more of Coeur’s common stock have the right to call a special meeting of the stockholders
No Poison Pill	<ul style="list-style-type: none">• Coeur does not have a poison pill or similar anti-takeover defenses in place

Appendix

> Industry-Leading Safety Performance

Coeur continues to demonstrate industry-leading commitment to ensuring safety in its mines. Since 2012, the Company's injury frequency rates have been significantly lower than the U.S. averages and its reductions swifter

Lost-Time Injury Frequency Rate

Total Reported Injury Frequency Rate

(1) Source(s): U.S. Department of Labor Mine Safety and Health Administration: Metal and Nonmetal Mine Safety and Health. Injuries per 200,000 employee-hours worked.

(2) Includes both Coeur employees and contract workers.

> Summary of Rochester PEA¹

Highlights

- Re-scoped mine plan and PEA incorporate the anticipated economic benefit from:
 - Potential addition of an HPGR unit in early 2019
 - Planned construction in 2020 of a new crusher, including a second HPGR, with anticipated 20 million tons per year capacity (compared to current capacity of approximately 15 million tons)
- Includes approximately 80 million tons of inferred material in addition to year-end 2017 reserves
 - Inferred material would be infill drilled to reserve confidence over several years
- Anticipated benefits from HPGR technology include:
 - Improved silver recovery and accelerated timing of ultimate recovery from 20 to two years
 - Reduction of strip ratio from 0.8:1 to under 0.04:1
 - Reduced maintenance and energy consumption

		2017 TR	2018 PEA

(1) For additional information regarding Rochester's re-scoped mine plan and PEA, please refer to slides 25 and 26. Canadian investors should refer to the Technical Report and Preliminary Economic Assessment for Rochester dated March 5, 2018 on file at www.sedar.com.

> What is HPGR?

High pressure grinding rolls are relatively new to precious metals operations, although the technology has been proven in processing other materials

- HPGRs have been used in the aggregates sector for decades, though early challenges associated with surface wear of the rollers delayed its adoption in hard rock processing
- In an HPGR unit, feed material is subjected to high compressive force exerted by the floating roll, which is regulated by hydraulic pistons
- Key advantages include:
 - Low operational and maintenance costs due in large part to limited moving parts
 - Limited downtime for wear part replacement
 - Comparatively higher comminution efficiency
 - Accommodative of greater mineral variability

High Pressure Grinding Roll Schematic

Notes to Rochester's re-scoped mine plan and PEA:

- (a) 2018 PEA is effective March 5, 2018 and the 2017 Technical Report is effective December 31, 2016.
- (b) Assumed metals prices for estimated 2018 Mineral Resources were \$20.00 per ounce of silver and \$1,400 per ounce of gold. Assumed metal prices for estimated 2016 year-end Mineral Reserves were \$17.50 per ounce of silver and \$1,250 per ounce of gold and for estimated 2016 year-end Mineral Resources were \$19.00 per ounce of silver and \$1,275 per ounce of gold.
- (c) Mineral Resources are in addition to Mineral Reserves and do not have demonstrated economic viability. Inferred Mineral Resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of Mineral Reserves, and there is no certainty that the Inferred Mineral Resources will be realized.
- (d) Rounding of tons and ounces, as required by reporting guidelines, may result in apparent differences between tons, grade, and contained metal content.
- (e) For details on the estimation of mineral reserves, mineral resources, and inferred mineral resources, including the key assumptions, parameters and methods used to estimate the Mineral Reserves, Mineral Resources, and Inferred Mineral Resources, Canadian investors should refer to the 2017 NI 43-101 Technical Report on file at www.sedar.com as well as the 2018 Rochester Technical Report, including the PEA, filed March 5, 2018.
- (f) The Mineral Reserves silver equivalent cut-off grade equals 0.49 oz/t and the gold multiplier equals 109. The gold multiplying factor for silver equivalent is based on: $[(\$Price\ Au - \$Refining\ Au) / (\$Price\ Ag - \$Refining\ Ag)] \times [(\%Recovery\ Au) / (\%Recovery\ Ag)]$. The Mineral Resources cut-off grade equals 0.40 oz/t and the gold multiplier equals 103.
- (g) Rounding of short tons, grades, and troy ounces, as required by reporting guidelines, may result in apparent differences between tons, grades, and contained metal contents.
- (h) Mineral Reserves are contained within the Measured and Indicated pit designs, or in stockpiles are supported by a plan featuring variable throughput rates, stockpiling and cut-off optimization. The PEA plan is contained within the Measured, Indicated and Inferred pit design and has a different mining sequence, variable production rate and an alternative cut-off grade as described in footnotes b, e, and f.

> Impact of Select U.S. Tax Reforms

Recent U.S. tax reform is not expected to meaningfully impact near-term cash flows. In the long-term, Coeur expects to benefit from these reforms

Lower statutory corporate tax rate

Once U.S. NOLs are used, Coeur expects to benefit from a lower tax rate on future taxable income

Interest deductibility cap of 30% of U.S. EBITDA (EBIT after 2021)

Deduction limitation could result in higher taxable income and could influence future adjustments to capital structure

NOL offset limited to 80% of net income; carryback eliminated

Limitation on NOL offsets¹ will accelerate timing of becoming a cash tax payer

Repeal of alternative minimum tax

Potential monetization of approximately \$1.5M of AMT credit carryforward in future years

Transition to territorial system

No impact to Coeur based on structure

(1) Applies only to NOLs created after 2017.

> 2017 Results Summary

(\$M)	Years			Quarters				
	2017	2016	YoY Δ	4Q 2017	3Q 2017	QoQ Δ	4Q 2016	YoY Δ
Silver ounces sold (M oz)	12.7	8.9	42%	3.8	2.9	33%	2.2	71%

(1) In February 2018, the Company sold its wholly-owned Bolivian subsidiary, which owned and operated the San Bartolomé mine. As a result, the mine is excluded from consolidated operating statistics and financial results, which reflect continuing operations, in this presentation. The above results attributable to discontinued operations have been provided for reconciliation purposes.

> Building on 2017's Exploration Success

2017 exploration program highlights:

- \$41.9M of total exploration investment
 - \$30.3M of expense, \$11.6M of capitalized
- **Palmarejo** (\$11.9M expensed, \$3.7M capitalized)
 - Delivered initial reserve estimate for Nación-Dana as well as initial inferred resource estimates for La Bavisa and Zapata
 - Discovery of additional structures including Portales, Jacobo, and Madero
- **Kensington** (\$8.6M expensed, \$5.7M capitalized)
 - Infill and conversion drilling at Jualin expected to be reflected in an updated technical report later in 1Q
 - Drilling results demonstrated potential for discovery of additional high-grade structures similar to Jualin
- **Silvertip** (~\$1M capitalized¹)
 - Began surface and underground exploration drilling during the fourth quarter
 - Preparing underground access for additional drill rigs
 - Technical report anticipated in 3Q

2018 expected exploration priorities include:

- Targeting \$40M - \$50M²
 - \$20M - \$25M of both exploration expense and capitalized exploration
- **Palmarejo** (~\$10M expensed, ~\$5M capitalized)
 - Continued expansion of Nación-Dana, Guadalupe and Independencia
 - Initial resource estimates at recent discoveries near existing underground infrastructure
- **Silvertip** (~\$10M capitalized)
 - Initial focus on infill drilling to support mine planning
 - Expect to have four drill rigs active this quarter
- **Kensington** (~\$4M expensed, ~\$6M capitalized)
 - Expansion of Kensington Main, both upper and lower areas, and the high-grade Raven deposit
- **Rochester** (~\$0.5M expensed, ~\$2M capitalized)
 - Focus on in-pit resource expansion
- **Early-stage exploration** continuing to target properties with potential synergies with existing operations

(1) Included in Silvertip pre-production capital during 4Q 2017 of \$17.7M and excluded from the \$11.6M companywide capitalized exploration total.

(2) Guidance as published by Coeur on February 7, 2018.

> Capital Expenditures Outlook

Capital Expenditures by Mine

(% companywide total)

2018 capital expenditures are expected to total \$120M - \$140M¹

- \$90M - \$100M of sustaining capital expenditures, including \$20M - \$25M of capitalized exploration
- **Palmarejo** (\$30M - \$35M), **Kensington** (\$35M - \$40M)
 - Ongoing underground development at both mines
- **Silvertip** (\$37M - \$42M)
 - Underground development and drilling are underway; updated technical report expected later in the year
 - Ongoing infrastructure improvements planned, including mill upgrades and equipment purchases
- **Rochester** (\$7M - \$15M)
 - Capital expenditures are expected to decrease following completion of the Stage IV leach pad expansion
- **Wharf** (\$4M - \$7M)

Capital Expenditures Composition

(% companywide total)

(1) Capital expenditures guidance as published by Coeur on February 7, 2018.
 (2) Sustaining capital expenditures exclude capital leases.

> Non-Core Asset Divestitures

Coeur opportunistically divested assets for total consideration of \$41.3M in 2017 and \$65.1M since the beginning of 2016

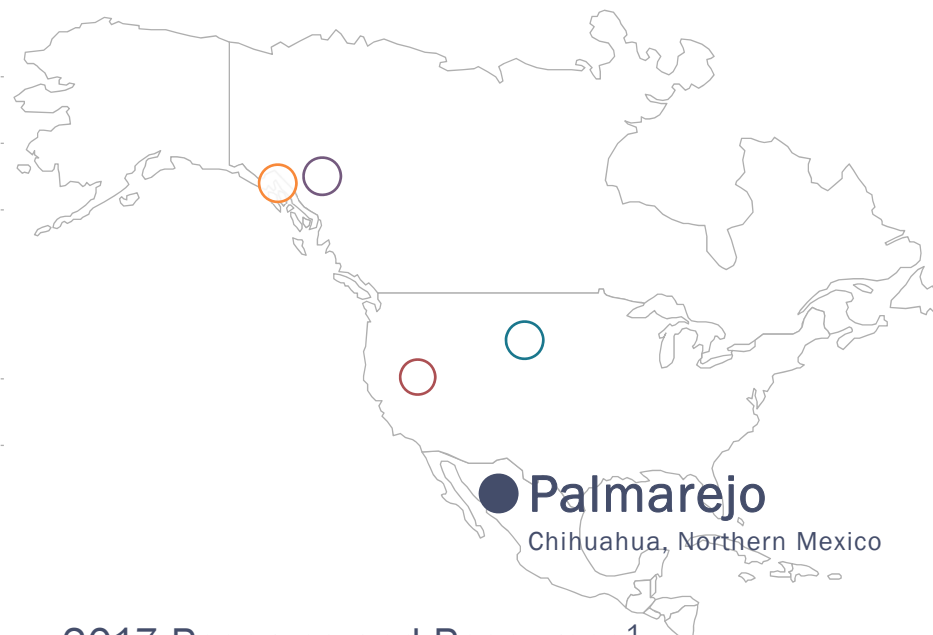

- Strengthens balance sheet
- Non-core assets
- Attractive valuation environment for streams and royalties
- Proceeds allocated to higher rate of return opportunities

Closing Date	Asset	Purchaser	Consideration	
March 31, 2016	Cerro Bayo 2.0% NSR royalty	Mandalay Resources Corporation	\$5.7M	\$4.0M cash; 2.5M shares
April 19, 2016	La Cigarra 2.5% NSR royalty	Kootenay Silver Inc.	\$3.6M	\$500,000 cash; 9.6M shares
April 19, 2016	El Gallo NSR royalty (3.5% until 350k cumulative AuEq production reached; 1.0% thereafter)	Subsidiary of McEwen Mining Inc.	\$6.3M	\$5.3M cash, plus \$1.0M contingent payable mid-2018
May 4, 2016	Martha assets in Argentina	Hunt Mining Corp	\$3.0M	\$1.5M at closing, \$1.5M on 1-year anniversary
July 25, 2016	Correnso 2.5% NSR royalty	Subsidiary of OceanaGold Corporation	\$5.2M	\$4.5M at closing, plus \$0.7M contingent payable in 2017
February 10, 2017	Joaquin Project in Argentina	Pan American Silver	\$27.4M ¹	\$15.0M cash, \$10.0M in shares of Pan American stock
July 31, 2017	Endeavor Silver Stream and royalty assets	Metalla Royalty & Streaming Ltd.	\$13.0M	Shares equal to 19.9% of outstanding at close, convertible debenture equal to remaining consideration
August 4, 2017	Lejano-Cisne property	Yacimientos Patagónicos	\$0.9M	\$940,000 cash
Total Consideration			\$65.1M	

(1) In addition, Coeur acquired a 2.0% NSR royalty on the Joaquin Project, which was subsequently sold to Metalla.

> Palmarejo

Ownership	100%
Claims	112,520 net acres
Type	Underground
Processing	Crushing, grinding, flotation, agitation leaching, Merrill-Crowe precipitation, refining

> Rochester: Scale-Driven Margin Expansion

Transformation Highlights

- From 2013 to 2016, tons placed were increased at a CAGR of 17%, reaching 19.6 million in 2016, before declining in 2017 primarily due to work on the Stage IV leach pad expansion
- From 2013 to 2017, AgEq¹ production increased 67%, mining costs declined 32%², and adjusted CAS per average spot AgEqOz¹ declined 23%
- Stage IV leach pad expansion commissioned in July 2017

Tons Placed

(M tons, excluding waste)

Production

(K oz)

Costs

(\$)

(1) Gold and silver equivalence assumes silver-to-gold ratio of 60:1 unless otherwise noted. Average applicable spot prices and silver-to-gold ratios are provided in the appendix to this presentation. See non-GAAP reconciliation tables in the appendix to this presentation.

(2) Based on mining costs per ton of \$1.56 for FY2017 compared to \$2.30 for FY2013.

(3) Midpoint of production and cost guidance as published by Coeur on February 7, 2018.

> Kensington

Ownership	100%

> Kensington: Higher Grades Anticipated in 2018

Transformation Highlights

- From 2012 to 2017, tons milled increased 69% as mill feed increased from less than 1,300 tpd to approximately 1,900 tpd, exceeding nameplate capacity
- Over the same period, CAS per AuOz¹ declined 25%
- Resource conversion and expansion drilling continues to show mineralization at Kensington Main, Jualin, and Raven well above the average reserve grade

Notes to 2017 mineral reserves and resources:

- Effective December 31, 2017.
- Assumed metal prices for estimated Mineral Reserves were \$17.50 per ounce of silver and \$1,250 per ounce of gold.
- Assumed metal prices for estimated Mineral Resources were \$20.00 per ounce of silver, \$1,400 per ounce of gold, \$1.15 per pound Zinc and \$1.00 per pound Lead.
- Mineral Resources are in addition to Mineral Reserves and do not have demonstrated economic viability. Inferred Mineral Resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of Mineral Reserves, and there is no certainty that the Inferred Mineral Resources will be realized.
- Rounding of tons and ounces, as required by reporting guidelines, may result in apparent differences between tons, grade, and contained metal content.
- For details on the estimation of mineral resources and reserves, including the key assumptions, parameters and methods used to estimate the Mineral Resources and Mineral Reserves, Canadian investors should refer to the NI 43-101 Technical Reports for Coeur's properties on file at www.sedar.com.

Notes to 2016 mineral reserves and resources:

- (a) Effective December 31, 2016.
- (b) Assumed metal prices for Mineral Reserves were \$17.50 per ounce of silver and \$1,250 per ounce of gold.
- (c) Assumed metal prices for estimated Mineral Resources were \$19.00 per ounce of silver and \$1,275 per ounce of gold, except Endeavor at \$1,800 per metric ton of lead, \$2,200 per metric ton of zinc, and \$20.00 per ounce of silver.
- (d) Mineral Resources are in addition to Mineral Reserves and do not have demonstrated economic viability. Inferred Mineral Resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of Mineral Reserves, and there is no certainty that the Inferred Mineral Resources will be realized.
- (e) Rounding of tons and ounces, as required by reporting guidelines, may result in apparent differences between tons, grade, and contained metal content.
- (f) For details on the estimation of mineral resources and reserves, including the key assumptions, parameters and methods used to estimate the Mineral Resources and Mineral Reserves, Canadian investors should refer to the NI 43-101 Technical Reports for Coeur's properties on file at www.sedar.com.
- (g) Joaquin, Endeavor, and Lejano removed following their respective sales on February 10, 2017, July 31, 2017, and August 4, 2017.

Wharf's Historical Mineral Reserves and Resources

	Short tons	Grade (oz/ton)		Ounces (contained)	
		Silver	Gold	Silver	Gold
PROVEN AND PROBABLE RESERVES					
Proven Reserves	15,179,000	0.078	0.022	1,190,000	340,000
Probable Reserves	8,245,000	0.108	0.026	890,000	220,000
Total Proven and Probable Reserves	23,424,000	0.089	0.024	2,080,000	560,000
MEASURED AND INDICATED RESOURCES					
Measured Resources	4,795,000	0.104	0.020	500,000	100,000
Indicated Resources	1,642,000	0.102	0.020	170,000	30,000
Total Measured and Indicated Resources	6,437,000	0.104	0.020	670,000	130,000

Notes to Wharf's historical Mineral Reserves and Mineral Resources:

- (a) Mineral Reserves and Mineral Resources estimate as reported by Goldcorp, Inc. ("Goldcorp") in its Annual Information Form dated March 31, 2014 ("AIF") for the financial year ended December 31, 2013, available to Canadian investors at www.sedar.com under Goldcorp's profile. As discussed in the AIF, Mineral Reserves and Mineral Resources were prepared by Goldcorp in accordance with NI 43-101 under the supervision of a qualified person. Coeur is not treating these historical estimates as current and has not completed sufficient work to classify the historical estimate as current mineral reserves or mineral resources for Coeur's purposes. Following Coeur's acquisition of Wharf, its qualified person reviewed and verified the scientific and technical information of Goldcorp as well as completed other work necessary for purposes of preparing a 43-101 technical report, including validation of data quality, resource model accuracy, and costs used in reserve and resource cutoffs.
- (b) As discussed in the AIF, mineral reserves were calculated by Goldcorp using metal prices of \$1,300 per gold ounce and \$22 per silver ounce, and mineral resources were calculated using \$1,500 per gold ounce and \$24 per silver ounce. Mineral resources are in addition to mineral reserves and do not have demonstrated economic viability. Rounding of tons, as required by reporting guidelines, may result in apparent differences between tons and grade.

> Executive Leadership

Mitchell J. Krebs – President and Chief Executive Officer. During his twenty-year tenure with Coeur, Mr. Krebs has led nearly \$2 billion in capital raising and debt restructuring activities and has facilitated over \$2 billion of acquisitions and divestitures. Mr. Krebs was previously Coeur's Chief Financial Officer and held various positions in the corporate development department, including Senior Vice President of Corporate Development. Mr. Krebs is a Director of Kansas City Southern and the National Mining Association, is on the Board of World Business Chicago, and was formerly President of the Silver Institute.

Peter C. Mitchell – Senior Vice President and Chief Financial Officer. Mr. Mitchell came to Coeur from Taseko Mines Limited where he served as Chief Financial Officer, leading Taseko's financial operations, including sourcing strategic capital to fund the company's strategic growth plan. Previously, Mr. Mitchell was involved in leading and managing growth in private equity portfolio companies through acquisitions, integrations, and greenfield initiatives.

Frank L. Hanagarne, Jr. – Senior Vice President and Chief Operating Officer. Mr. Hanagarne was most recently Chief Operating Officer of Valcambi, SA, a precious metal refiner in Switzerland. Prior to his appointment as operations head of Valcambi in early 2011, Mr. Hanagarne was a Director of Corporate Development for Newmont Mining Corporation. Mr. Hanagarne's 17 years of service at Newmont has included positions of increasing responsibility within key areas of Newmont's operations and business functions as well as environmental, health, and safety.

Casey M. Nault – Senior Vice President, General Counsel, and Secretary. Mr. Nault has over 20 years of experience as a corporate and securities lawyer, including prior in-house positions with Starbucks Corporation and Washington Mutual, Inc. and law firm experience with Gibson, Dunn & Crutcher. His experience includes securities compliance and SEC reporting, corporate governance and compliance, mergers and acquisitions, public and private securities offerings, other strategic transactions, general regulatory compliance, cross-border issues, land use and environmental issues, and overseeing complex litigation.

Hans Rasmussen – Senior Vice President, Exploration. Mr. Rasmussen has 30 years of experience in the mining business, 16 years of which were with senior producers Newmont Mining and Kennecott/Rio Tinto; as well as serving as a consultant for senior producers such as BHP, Teck-Cominco, and Quadra Mining. Since 2004, he has been an officer or served on the Board of Directors of several junior public exploration companies with gold and silver projects in Quebec, Nevada, Argentina, Chile, Colombia, Peru, and Bolivia.

Emilie Schouten – Vice President, Human Resources. Ms. Schouten has 15 years of experience in Human Resources, starting her career in General Electric, where she graduated from GE's Human Resources Leadership Program. After 6 years as an HR Manager with GE, her division was acquired by the world's largest electrical distribution company, Rexel, and Ms. Schouten went on to become the Director of Training and Development. Ms. Schouten has her B.A. in Sociology from Michigan State University and her M.S. in Industrial Labor Relations from University of Wisconsin-Madison.

Robert E. Mellor – Former Chairman, Chief Executive Officer, and President of Building Materials Holding Corporation (distribution, manufacturing, and sales of building materials and component products) from 1997 to January 2010, director from 1991 to January 2010; member of the board of directors of CalAtlantic Group, Inc. (national residential home builder) from October 2015 to February 2018, when CalAtlantic was acquired by Lennar Corporation; member of the board of directors of The Ryland Group, Inc. (national home builder, merged with another builder to form CalAtlantic) from 1999 until October 2015; member of the board of directors of Monro Muffler/Brake, Inc. (auto service provider) since August 2010 as independent Chairman of the board of directors since June 2017 and as lead independent director from April 2011 to June 2017; and former member of the board of directors of Stock Building Supply Holdings, Inc. (lumber and building materials distributor) from March 2010 until December 2015, when it merged with another company.

Mitchell J. Krebs – President and Chief Executive Officer. See prior slide.

Linda L. Adamany – Member of the board of directors of Leucadia National Corporation, a diversified holding company engaged in a variety of businesses, since March 2014; non-executive director of the Wood Group plc since October 2017 following its acquisition of Amec Foster Wheeler plc, an engineering, project management, and consultancy company, where Ms. Adamany was previously a non-executive director since October 2012; member of the board of directors of National Grid plc, an electricity and gas generation, transmission, and distribution company, from November 2006 to November 2012. Served at BP plc in several capacities from July 1980 until her retirement in August 2007, most recently from April 2005 to August 2007 as a member of the five-person Refining & Marketing Executive Committee responsible for overseeing the day-to-day operations and human resource management of BP plc's Refining & Marketing segment, a \$45 billion business at the time.

Kevin S. Crutchfield – Chief Executive Officer and member of the board of directors of Contura Energy, Inc. (coal industry); before joining Contura at its inception in July 2016, he was Chairman (from May 2012) and Chief Executive Officer (from July 2009) of Alpha Natural Resources, Inc. He was with Alpha Natural Resources since its formation in 2003, serving as Executive Vice-President, President, Director, and Chief Executive Officer. Mr. Crutchfield is a 25-year coal industry veteran with technical, operating, and executive management experience and recently served as the Chairman of the National Mining Association.

Sebastian Edwards – Henry Ford II Professor of International Business Economics at the Anderson Graduate School of Management at the University of California, Los Angeles (UCLA) from 1996 to present; Co-Director of the National Bureau of Economic Research's Africa Project from 2009 to present; taught at IAE Universidad Austral in Argentina and at the Kiel Institute from 2000 to 2004; Chief Economist for Latin America at the World Bank Group from 1993 to 1996. Currently a Member of the Board of Moneda Asset Management, an investment management firm in Chile, and Centro de Estudios Públicos, Chile.

Randolph E. Gress – Retired Chairman (November 2006 until January 2016 and director from August 2004 until January 2016) and Chief Executive Officer (from 2004 until December 2015) of Innophos Holdings, Inc., a leading international producer of performance-critical and nutritional specialty ingredients for the food, beverage, dietary supplements, pharmaceutical, and industrial end markets. Mr. Gress was with Innophos since its formation in 2004, when Bain Capital purchased Rhodia SA's North American specialty phosphate business. Prior to his time at Innophos, Mr. Gress was with Rhodia since 1997 and held various positions including Global President of Specialty Phosphates (with two years based in the U.K.) and Vice-President and General Manager of the NA Sulfuric Acid and Regeneration businesses. From 1982 to 1997, Mr. Gress served in various roles at FMC Corporation including Corporate Strategy and various manufacturing, marketing, and supply chain positions.

Eduardo Luna – President, Chief Executive Officer and Director of Rochester Resources Ltd., a junior natural resources company with assets in Mexico. Member of the Boards of Directors of Wheaton Precious Metals Corp. and DynaResource, Inc., Chairman of the Advisory Board of the Faculty of Mines at the University of Guanajuato, and Mexico Mining Hall of Fame inductee. Mr. Luna is the former President of the Mexican Mining Chamber and a former President of the Silver Institute and previously held senior executive and board positions at several companies including Industrial Peñoles, Goldcorp Inc., Luismin SA de CV, Wheaton River Minerals Ltd., Alamos Gold Inc., and Primero Mining Corp.

Jessica L. McDonald – Chair of Canada Post Corporation and a member of the Board of Directors of Trevali Mining Corporation. Ms. McDonald is also a Mentor at the Trudeau Foundation and a visiting fellow at the Steyer-Taylor Center for Energy Policy and Finance at Stanford University and was named to Canada's Top 100 Most Powerful Women Hall of Fame. Ms. McDonald previously served as the President and Chief Executive Officer of BC Hydro and Power Authority, a clean energy utility with over \$5.5 billion in annual revenues and more than 5,000 employees, and has held numerous senior positions in the British Columbia provincial government, including Deputy Minister to the Premier, Cabinet Secretary and Head of the BC Public Service.

John H. Robinson – Chairman of Hamilton Ventures LLC (consulting and investment) since founding the firm in 2006; Chief Executive Officer of Nowa Technology, Inc. (development and marketing of environmentally sustainable wastewater treatment technology) from 2013 to 2014; Chairman of EPC Global, Ltd. (engineering staffing company) from 2003 to 2004; Executive Director of Amey plc (British business process outsourcing company) from 2000 to 2002; Vice Chairman of Black & Veatch Inc. (engineering and construction) from 1998 to 2000. Mr. Robinson began his career at Black & Veatch and was managing partner prior to becoming Vice Chairman. Member of the board of directors of Alliance Resource Management GP, LLC (coal mining); Federal Home Loan Bank of Des Moines (financial services) and Olsson Associates (engineering consulting).

J. Kenneth Thompson – Member of the board of directors of Alaska Air Group, Inc. (parent company of Alaska Airlines, Virgin America Airlines and Horizon Air), Pioneer Natural Resources Company (oil and gas), and Tera Tech, Inc. (engineering consulting). President and Chief Executive Officer of Pacific Star Energy LLC (private energy investment firm in Alaska) from September 2000 to present, with a principal holding in Alaska Venture Capital Group LLC (private oil and gas exploration company) from December 2004 to present; Executive Vice President of ARCO's Asia Pacific oil and gas operating companies in Alaska, California, Indonesia, China, and Singapore from 1998 to 2000.
